SUMMARY

I'm a web developer who loves building apps and bringing designs to life. My go-to technologies right now include **HTML5**, **CSS3**, and **JavaScript**(ESNext) — amped with the help of **React** & **Redux** and **PostCSS** & **Sass** — built with the help of **Webpack** and **Babel**. I also work with some **PHP**, **SQL**, and **NodeJS**.

Feel free to check me out on GitHub at **https://github.com/samvk** or take a look at my portfolio at **https://samvk.com**.

EXPERIENCE

Software Engineer | Web Application Developer   2016 – Present
Konica Minolta Business Solutions, Windsor, CT
- Led a small team in the development and adoption of React & Redux and PostCSS for the new global app store
- Redesigned the app store for a modern look and better user-friendliness
- Worked closely with QA to improve the stability, user-interface, and internationalization & localization of the store
- **Tools:** HTML5, CSS3, JavaScript(ESNext), React, Redux, PostCSS, Webpack, Babel, PHP, SQL
